CV

INTRODUCTION

I'm a Belgian student who studies applied information technology.
I'm specialized in system management and networks, but I have training in programming and business process management as well.
I'm looking for an internship that helps me grow as an informatician.

EDUCATION

INTERNSHIP AT THE DATACAMP ENGINEERING TEAM • 2020 - 2021 • DATACAMP LEUVEN
During my internship I worked with AWS, Docker, CircleCI, k8s and ShinyProxy. My job was to adapt the current dashboards to ShinyProxy and take up smaller jobs while working on this task.

BACHELOR INDUSTRIAL ENGINEERING • 2015-2016 • GROUP T LEUVEN
Started out of interest in mechanical engineering and computer science. Chose a more specialized education the following year.

GYMNASIUM SCIENCE AND MATHEMATICS • 2009-2015 • SANCTA MARIA AARSCHOT

YOUTH ANIMATOR FOR CHILDREN WITH DISABILITIES • 2013 • HET BALANSKE

PROFESSIONAL EXPERIENCE

TEACHER OF CODING AT SUMMER CAMP • SKILLZ • SUMMER 2019
I have taught coding to children from the ages of 7 to 12. Introduction course using Scratch.

TEACHER OF CODING AT SUMMER CAMP • SKILLZ • SUMMER 2019
I have taught coding to children from the ages of 7 to 12. Introduction course using Scratch.

CREATING WEBSITE FOR UMAMI CATERING • UAS LEUVEN • 2019
UAS Leuven organized a project where small teams had to make a website for a local client. The teams had to communicate with the client to create a website for their catering company.

DEVELOPMENT OF IOT APPLICATION • UAS LEUVEN • 2019
UAS Leuven organized a project week where we were tasked with coming up with a useful concept for an IoT device. Afterwards we made a practical prototype and marketing slogan. We worked in teams of around 4 people.

PROGRAMMING LANGUAGES, SKILLS & TOOLS

Java | Java Script | MySQL | PostgreSQL | Python | Docker | Managing and Maintaining Linux and Windows systems | Web development | AWS | ShinyProxy | CircleCI
